

Set your documents free with the power of PostScript and PDF.

Unlock the power of your documents.

Leverage your investment in documents created by Xerox FreeFlow® or DigiPath®. These documents are stored as proprietary Xerox RDO (Raster Document Objects) files. RDOPrint converts the files to PostScript so they can be printed on any PostScript printer or converted to PDF.

The Business Benefits.

- ✓ Maximize printer productivity by transforming proprietary RDO documents created by Xerox FreeFlow™ Makeready® and DigiPath to PostScript, as well as PDF
- ✓ Leverage the power of the network and send PostScript and PDF documents to any printer, including remote printers
- ✓ Maximize document value by sharing universally viewable PDF files.

The Proven Partner.

- ✓ Responsive, experienced, US-based Technical Analysts provide the best direct support in the industry
- ✓ Rigorous implementation processes ensure your success
- ✓ Celebrating more than 30 years of delivering customer results.

RDOPRINT FEATURES:

- ✓ View store and print on virtually any printer
- ✓ Optimizes output for common production printers
- ✓ Cost-effective solution that pays dividends each time you need to print the converted documents on any PostScript printer
- ✓ An XML job ticket is created for each file, providing the operator with detailed job information
- ✓ Batch conversion for continued editing in ReadyPrint™ with ticketing
- ✓ Converted files are optimized for production printers, allowing the documents to be printed with little or no make ready
- ✓ The automated workflow for processing files is supported by a complete audit trail
- ✓ Leverage existing devices and tools with output optimized for Micropress®, PowerPRESS™, and SmartBoard™.

- PDF
- Embedded setpagedevice commands for media selection, plex selection, and other job ticket functions on printers that support this feature
- Enhanced support for select production printers—contact RSA for more details

SOFTWARE ENVIRONMENT

- Runs on a customer-supplied Windows PC

RDOPrint Workflow

Chosen proven, automated data transformation.

For decades, RSA's Transform Suite of products has enabled the reliable, transparent migration from legacy output devices to modern network printers. Thousands of customers rely on us every day for transactional data conversion. They each enjoy improved equipment utilization, increased productivity, and reduced expenses.

Innovative technology for your documents.

Responsive service for your people.

RSA Customer Success Assurance is RSA's approach to ensuring complete satisfaction with your RSA solutions. Our number one goal is your success. We make certain your solution is implemented and works exactly as you expect.

Our experts work with your staff to design, pre-configure, and deliver a solution using a rigorous implementation process proven and tested over decades so you can be up and running as soon as possible and realizing immediate results. Success is always measured by increased employee productivity, lower costs, increased print volume, adherence to your time line, and your satisfaction.

Transform legacy datastreams. Transform business performance.

Only one company has been leading the industry for more than 30 years with submission, transformation and management solutions that assure customer success. See for yourself why so many in-plants and corporate print centers rely on RDOPrint from Rochester Software Associates to turn printing into productivity.
